**MiFID II product governance / Professional investors and ECPs only target market** – Solely for the purposes of each manufacturer's product approval process, the target market assessment in respect of the issue 2023-2 notes has led to the conclusion that: (i) the target market for the issue 2023-2 notes is eligible counterparties and professional clients only, each as defined in Directive 2014/65/EU (as amended, **MiFID II**); and (ii) all channels for distribution of the issue 2023-2 notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the issue 2023-2 notes (an **EEA distributor**) should take into consideration the manufacturers' target market assessment; however, an EEA distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the issue 2023-2 notes (by either adopting or refining the manufacturers' target market assessment) and determining appropriate distribution channels.

**UK MiFIR product governance / Professional investors and ECPS only target market** – Solely for the purposes of each manufacturer's product approval process, the target market assessment in respect of the issue 2023-2 notes has led to the conclusion that: (i) the target market for the issue 2023-2 notes is eligible counterparties only, as defined in the FCA Handbook Conduct of Business Sourcebook (**COBS**), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the EUWA (**UK MiFIR**); and (ii) all channels for distribution of the issue 2023-2 notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the issue 2023-2 notes (a **UK distributor**) should take into consideration the manufacturers' target market assessment; however, a UK distributor subject to FCA Handbook Product Intervention and Product Governance Sourcebook (the **UK MiFIR Product Governance Rules**) is responsible for undertaking its own target market assessment in respect of the issue 2023-2 notes (by either adopting or refining the manufacturers' target market assessment) and determining appropriate distribution channels.

**Prohibition of sales to EEA retail investors** – The issue 2023-2 notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (**EEA**). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive (EU) 2016/97, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; . Consequently no key information document required by Regulation (EU) No 1286/2014 (the **EU PRIIPs Regulation**) for offering or selling the issue 2023-2 notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the issue 2023-2 notes or otherwise making them available to any retail investor in the EEA may be unlawful under the EU PRIIPs Regulation.

**Prohibition of sales to UK retail investors** – The issue 2023-2 notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (the **UK**). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (the **EUWA**); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (**FSMA**) and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article

2(1) of Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the EUWA;. Consequently, no key information document required by Regulation (EU) No 1286/2014 as it forms part of UK domestic law by virtue of the EUWA (the **UK PRIIPs Regulation**) for offering or selling the issue 2023-2 notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the issue 2023-2 notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

The issue 2023-2 notes have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the **Securities Act**) or the securities laws of any state or other jurisdiction of the United States and the issue 2023-2 notes may not be offered or sold in the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S) except in transactions that occur outside the United States to persons other than U.S. persons in accordance with Regulation S or in other transactions exempt from registration under the Securities Act and, in each case, in compliance with applicable securities laws.

## SERIES START-UP LOAN AND PREVIOUS LOANS FUNDING

### New start-up loan

The new start-up loan to be made available by Santander UK (in its capacity as the start-up loan provider) to Funding on the closing date in connection with the issue 2023-2 notes will have the terms as set out in "**Series Start-up Loan and Previous Start-up Loans to Funding**" below.

### Other series issued

As of the closing date of the issue 2023-2 notes (the **closing date**), the aggregate principal amount outstanding of Master Issuer notes issued by the Master Issuer (converted, where applicable, into sterling at the applicable specified currency exchange rate), including the issue 2023-2 notes described herein, will be as set out in "**Master Issuer notes**" below.

### Other term advances

As of the closing date, the aggregate outstanding principal balance of term advances advanced by the Master Issuer to Funding under the master intercompany loan agreement, including the term advances described herein, will be as set out in "**Master Issuer notes**" below.

### Mortgages trust and the portfolio

As at the closing date the minimum seller share will be approximately £312,078,931.65.

### First reserve fund

As at the closing date, the definition of **first reserve fund additional required amount** will be, with respect to each Interest Payment Date, an amount equal to the sum of the first reserve fund required amount and if an arrears trigger event (calculated, in each case, as of the last calendar day of the month immediately preceding the closing date or such Interest Payment Date, as applicable) has occurred with respect to such Interest Payment Date (a) under item (i) only of the arrears trigger event definition, £5 million, (b) under item (ii) only of the arrears trigger event definition, £5 million, or (c) under both items (i) and (ii) of the arrears trigger event definition, £10 million.

As at the closing date, the definition of **first reserve fund required amount** will be £68 million (being an amount equal to 3 per cent. of the aggregate outstanding balance of the rated Master Issuer notes). On and after the existing outstanding notes final redemption date, the definition of first reserve fund required amount will be (a) while any Master Issuer notes remain outstanding, an amount which is the higher of: (1) an amount equal to the first reserve fund percentage (as specified in the most recent final terms) of the aggregate outstanding balance of the rated Master Issuer notes as at such interest payment date; and (2) the first reserve fund minimum amount, or (b) if there are no rated Master Issuer notes outstanding, zero.

### Funding liquidity reserve fund

On the closing date, the definition of **Funding liquidity reserve fund** means the reserve fund to be established on downgrade of the long term rating of the seller assigned by Moody's below A3 (unless Moody's confirms that the then current ratings of the outstanding rated Master Issuer notes will not be adversely affected by the ratings downgrade) to help meet any deficit in Funding available revenue receipts which are allocated to the Master Issuer to pay amounts due on the intercompany loan advanced by the Master Issuer to Funding, but only in certain limited circumstances, as described further in "**Credit structure – Funding liquidity reserve fund**" in the base prospectus.

On the closing date, the definition of **Funding liquidity reserve required amount** shall be an amount calculated in the formula set out in "**Credit structure – Funding liquidity reserve fund**" in the base prospectus.

### **Arrears trigger event**

As at the closing date, **arrears trigger event** means either (i) the outstanding principal balance of the loans in arrears for more than 90 days divided by the outstanding principal balance of all of the loans in the mortgages trust (expressed as a percentage) exceeds 2 per cent. or (ii) the Master Issuer does not exercise its option to redeem the Master Issuer notes on the relevant step-up date pursuant to the terms and conditions of the Master Issuer notes (but only where such right of redemption arises on or after a particular specified date and not as a result of the occurrence of any event specified in the terms and conditions of the relevant Master Issuer notes).

### **Mortgage Sale Agreement**

The **Fitch portfolio tests** for the purposes of the mortgage sale agreement are:

- original weighted average LTV ratio: 69.5.
- original weighted average LTV percentages: 80.0 and 33.0.
- current weighted average LTV ratio: 66.5.
- weighted average income multiple: 4.4.
- interest only outstanding principal balance percentage 65.0.

The minimum yield for the purposes of the mortgage sale agreement is: 0.75.

The definition of 'Y' within the definition of stressed excess spread is: SONIA for 3 month sterling deposits plus 0.75 per cent.

## Funding swaps

### Total Interim exchange amounts

The total interim exchange amount payable in respect of (all of) the Funding swap(s) on the closing date is £0. Funding shall pay the total interim exchange amount to the Funding swap provider on the closing date (such payment funded via the 2023-2 start-up loan), and the Funding swap provider shall pay an amount equal to such total interim exchange amount back to Funding on the immediately following interest payment date.

The purpose of these arrangements is to fund the mismatch in days between the closing date and the first interest payment date on the one hand and the closing date and the first distribution date on the other hand.

### Spread (receive-leg) under the Funding swaps

The terms of the tracker rate loans Funding swap(s), the variable rate loans Funding swap(s) and the fixed rate loans Funding swap(s) allow Funding and the Funding swap provider to adjust from time to time the spread which the relevant Funding swap provider pays to Funding in order to reflect movements in market interest rates and interest rates being charged on the loans subject to the relevant Funding swap(s). The relevant spreads under the Funding swap(s) as at the closing date are:

Funding swap (fixed) 1	1.45%
Funding swap (fixed) 2	1.45%
Funding swap (fixed) 3	1.45%
Funding swap (fixed) 4	1.45%
Funding swap (fixed) 5	1.45%
Funding swap (fixed) 6	1.45%
Funding swap (tracker) 1	0.90%
Funding swap (variable) 1	3.15%

### Post-perfection SVR-SONIA margin

The post-perfection SVR-SONIA margin for the purposes of the servicing agreement is: 2.95%

### **Use of proceeds**

The gross proceeds from the issue of the issue 2023-2 notes will equal approximately £750,000,000 and will be used by the Master Issuer to make available term advances to Funding pursuant to the terms of the master intercompany loan agreement. Funding will use the gross proceeds of each term advance to fund the first reserve fund and to pay the purchase price to the seller for the sale of part of its share in the trust property to Funding on the closing date.

### **Maturity and prepayment considerations**

The average lives of any class of the issue 2023-2 notes cannot be stated, as the actual rate of repayment of the loans and redemption of the mortgages and a number of other relevant factors are unknown. However, calculations of the possible average lives of each class of the issue 2023-2 notes can be made based on certain assumptions. The assumptions used to calculate the possible average lives of each class of the issue 2023-2 notes in the following table include the following:

- (a) neither the Master Issuer security nor the Funding security has been enforced;
- (b) each class of issue 2023-2 notes is repaid in full by its step-up date;
- (c) the seller is not in breach of the terms of the mortgage sale agreement;
- (d) the seller does not sell any loans to the mortgages trustee after the closing date (except to the extent set out in assumption (e) below) and the loans are assumed to amortise in accordance with the assumed principal prepayment rate as indicated in the table below;
- (e) the seller assigns to the mortgages trustee sufficient new loans and their related security, such that the aggregate principal amount outstanding of loans in the portfolio will not fall below an amount equal to 1.20 times the Funding share or such higher amount as may be required to be maintained as a result of the Master Issuer advancing term advances to Funding and/or any new issuing entity advancing new term advances to Funding or any further funding entity (as the case may be) which Funding and/or any further funding entity (as the case may be) uses as consideration for an increase in its share of the trust property or for the sale of new loans to the mortgages trustee;
- (f) new loans sold to the mortgages trustee will have the same scheduled principal repayment profile as the portfolio of 31 July 2023;
- (g) neither an asset trigger event nor a non-asset trigger event occurs;
- (h) no event occurs that would cause payments on any series of notes to be deferred;
- (i) the principal prepayment rate as at the cut-off date for the portfolio is the same as the various assumed rates in the table below;
- (j) the Master Issuer exercises its option to redeem each series of notes on the step-up date, relating to such notes;
- (k) the closing date is 7 September 2023;
- (l) the mortgage loans are not subject to any defaults or losses and no mortgage loan falls into arrears;
- (m) no interest or fees are paid from principal receipts;
- (n) the long term, unsecured, unsubordinated and unguaranteed debt obligations of the seller continue to be rated at least "A2" by Moody's and "A" by S&P and the long term "issuer default rating" of the seller continues to be at least "A" by Fitch; and
- (o) the Funding principal ledger balance (excluding any cash accumulated in the cash accumulation ledger) at the closing date is assumed to be the cash accumulated after the distribution date falling on 8 August 2023, equal to £0.

**Principal prepayment rate and possible average lives of each series and class (or sub-class) of issue  
2023-2 notes (in years)**

Based upon the foregoing assumptions, the approximate average life in years of each series and class (or sub-class) of issue 2023-2 notes, at various assumed rates of repayment of the loans, would be as follows:

<b>Principal payment rate<sup>(1, 2)</sup> (per annum)</b>	<b>series 2023-2 class A1 notes</b>
5 per cent.....	4.82
10 per cent.....	4.82
15 per cent.....	4.78
20 per cent.....	4.71
25 per cent.....	4.65
30 per cent.....	4.60
35 per cent.....	4.58

(1) Includes both scheduled and unscheduled payments.

(2) WALs calculated to the greater of indicated PPR and scheduled amortisation profile.

Assumptions (a) to (h) and (j) and (n) relate to circumstances which are not predictable. Assumptions (i) and (o) relate to events under the control of the Master Issuer but no assurance can be given that the Master Issuer will be in a position to redeem the relevant series and class (or sub-class) of issue 2023-2 notes on the step-up date. If the Master Issuer does not so exercise its option to redeem, then the average lives of the then outstanding issue 2023-2 notes would be extended.

The average lives of the issue 2023-2 notes are subject to factors largely outside the control of the Master Issuer and consequently no assurance can be given that these assumptions and estimates will prove in any way to be realistic, and they must therefore be viewed with considerable caution. For more information in relation to the risks involved in the use of these estimated average lives, see "**Risk factors – The yield to maturity of the Master Issuer notes may be adversely affected by prepayments or redemptions on the loans**" in the base prospectus.

### Statistical information on the expected portfolio

The statistical and other information contained in these final terms has been compiled by reference to the loans expected to comprise the portfolio (the **expected portfolio**) as at 31 July 2023 (the **cut-off date**). Columns stating percentage amounts may not add up to 100 per cent. owing to rounding.

A loan will have been removed from any new portfolio (which comprises a portion of the expected portfolio as at the cut-off date) if, in the period up to (and including) the closing date relating to such new portfolio, the loan is repaid in full or if the loan does not comply with the terms of the mortgage sale agreement on or about the applicable closing date. Once such loans are removed, the seller will then randomly select from the loans remaining in the new portfolio those loans to be sold and assigned on the applicable closing date once the determination has been made as to the anticipated principal balances of the issue 2023-2 notes to be issued and the corresponding size of the trust property that would be required ultimately to support payments on the Master Issuer notes of the Master Issuer.

The loans that are selected for inclusion in the mortgages trust will have been originated on the basis of the seller's lending criteria. The material aspects of the seller's lending criteria are described under "**The loans – Underwriting**" and "**The loans – Lending criteria**" in the base prospectus. Standardised credit scoring is not used in the UK mortgage market. For an indication of the credit quality of borrowers in respect of the loans, investors may refer to such lending criteria and to the historical performance of the loans in the mortgages trust as set forth in these final terms. One significant indicator of obligor credit quality is arrears and losses. The information presented under "**The loans – Arrears experience**" in the base prospectus and these final terms reflects the arrears and repossession experience for loans that were contained in the portfolio since the inception of the mortgages trust and loans transferred to the mortgages trust on the closing date. Santander UK services all of the loans it originates. It is not expected that the characteristics of the portfolio as at the closing date will differ materially from the characteristics of the expected portfolio as at the cut-off date. Except as otherwise indicated, these tables have been prepared using the current balance as at the cut-off date, which includes all principal and accrued interest for the loans in the expected portfolio.

The expected portfolio as at the cut-off date consisted of 40,865 mortgage loans, comprising loans originated by Santander UK and secured over properties located in England, Wales and Scotland and having an aggregate outstanding principal balance of approximately £3,612,354,371 as at that date. The loans in the expected portfolio as at the cut-off date were originated by the seller between September 1995 and April 2023.

Approximately 30.25 per cent. of the loans by aggregate outstanding principal balance had an original loan-to-value ratio of at least 80 per cent. as at the cut-off date.

As at the closing date:

- the Funding share of the trust property will be approximately £2,457,857,160.00, representing approximately 68.04 per cent. of the trust property; and
- the seller share of the trust property will be approximately £1,154,497,210.60, representing approximately 31.96 per cent. of the trust property.

The actual amounts of the Funding share of the trust property and the seller share of the trust property as at the closing date will not be determined until the day before the closing date which will be after the date of these final terms.

## Outstanding principal balances

The following table shows the range of outstanding principal balances (including capitalised high loan-to-value fees and/or booking fees and/or valuation fees).

The largest mortgage loan has an outstanding principal balance of £748,579.39 and the smallest mortgage loan has an outstanding principal balance of approximately £0.00. The average outstanding principal balance is approximately £88,397.27.

The account status is set to "redeemed" when the balance is zero and the overpaid amount has been refunded which normally happens within two to three days of that overpayment.

The aggregate outstanding principal balance of all loans to a single borrower does not exceed 2.00% of the aggregate outstanding principal balance of all loans as of the cut-off date.

## Loan-to-value ratios at origination

The following table shows the range of loan-to-value, or LTV, ratios, which express the outstanding balance of a mortgage loan as at the date of the original initial mortgage loan origination divided by the value of the property securing that mortgage loan at the same date.

OLTV				
Original LTV	Number	% of Total Number	Amount (GBP)	% of Total Amount

On 23 January 2018, Santander UK introduced the follow-on rate, which is the reversionary interest rate that all mortgages taken out by its customers on or after such date will transfer to once their initial product interest rate ends. Customers with mortgages entered into before 23 January 2018 will pay interest at the SVR once their initial product rate ends. The follow-on rate is a variable rate that tracks the Bank of England base rate and will move in line with Bank of England base rate changes. Its difference from the SVR is that the SVR is a rate managed by Santander UK and does not directly reflect movements in the Bank of England base rate unlike the follow-on rate.

## Payment Rate Analysis

The following table shows the annualised payment rate for the most recent 1-, 3- and 12-month period for the loans in the expected portfolio.

<b>As of month-end</b>	<b>1-month annualised 1</b>	<b>3-month annualised 2</b>	<b>12-month annualised 3</b>
July 2023 .....	26.60%	44.99%	35.48%

In the table above, 12-month annualised CPR is calculated as the average of the 1-month annualised CPR for the most recent 12 months (calculated as  $1 - ((1 - R)^{12})$  where R is (i) total principal receipts received plus the principal balance of loans repurchased by the seller (primarily due to further advances) during the relevant period, divided by (ii) the aggregate outstanding principal balance of the loans in the expected portfolio as at the start of that period.

Start-up loan provider:	Santander UK plc
Initial outstanding principal balance:	£24,730,947.40
Interest rate:	SONIA +0.90% per annum

#### Start-up loans to Funding

The following start-up loans have been made available to Funding by Santander UK (in its capacity as the start-up loan provider) in connection with the previous issues of notes by the Master Issuer set out below, for the stated current outstanding principal balance and interest rate.

<b>Master Issuer</b>	<b>Current outstanding principal balance</b>	<b>Interest Rate</b>
Holmes Master Issuer PLC (in respect of the issue 2022-1 notes).....	£17,865,422.79	SONIA + 0.90% per annum
Holmes Master Issuer PLC (in respect of the issue 2023-1 notes)	£16,309,884.31	SONIA + 0.90% per annum

## THE LOANS

### Interest payments and interest rate setting

Interest on each loan is payable monthly in arrear. Interest on loans is computed daily on balances which are recalculated on a daily, monthly or annual basis.

The basic rate of interest set by the seller for loans beneficially owned by the seller outside the mortgages trust is either a variable rate, the Santander UK SVR or a tracking rate or a rate directly linked to a rate set from time to time by the Bank of England. The 2002 mortgage conditions, the 2004 mortgage conditions and the 2006 mortgage conditions provided for a cap on the variable rate which was initially set at 2.5 per cent. above the Bank of England's base rate. The cap was then increased in 2008 (for loans originated under those editions of the mortgage conditions) to a margin of 3.75 per cent. above the Bank of England's base rate. This cap was removed from editions of the mortgage conditions from the 2007 edition onwards. As at the cut-off date, the Santander UK SVR was 7.5 per cent. per annum.

## UK SECURITISATION REGULATION

### UK STS requirements

The seller, as originator, has procured an STS notification to be submitted to the Financial Conduct Authority (**FCA**), in accordance with Article 27 of the UK Securitisation Regulation that the requirements of Articles 19 to 22 of the UK Securitisation Regulation (the **UK STS requirements**) have been satisfied with respect to the issue 2023-2 notes. It is expected that the UK STS notification will be available on the website of the FCA at <https://data.fca.org.uk/#/sts/stssecuritisations>. For the avoidance of doubt, this website and the contents thereof do not form part of these final terms.

The seller has not used the services of an authorised verification agent authorised under Article 28 of the UK Securitisation Regulation in connection with the verification of the compliance of the issue 2023-2 notes with the UK STS requirements.

The seller has obtained a legal opinion provided by qualified external legal counsel providing, among other things: (i) confirmation that the true sale, assignment or transfer segregate the loans and their related security from the seller, its creditors and its liquidators, including in the event of the seller's insolvency, with the same legal effect as that achieved by means of true sale; (ii) confirmation of the enforceability of the true sale, assignment or transfer with the same legal effect referred to in (i) against the seller or any other third party; and (iii) an assessment of clawback risks and re-characterisation risks, which legal opinion is accessible and made available to any relevant third party verifying UK STS compliance in accordance with Article 28 of the UK Securitisation Regulation and any relevant competent authority from among those referred to in Article 29 of the UK Securitisation Regulation.

### Mitigation of interest rate and currency risks

The loans and the notes are affected by interest rate and currency risks (see "*The timing and amount of payments on the loans could be affected by various factors which may adversely affect payments on the Master Issuer notes*" and "*Changes or uncertainty in respect of interest rate benchmarks may affect the value, liquidity or payment of interest under the Master Issuer notes*" in the Risk Factors section of the prospectus). Each of Funding and the Master Issuer aims to hedge the relevant interest rate and currency rate exposures in respect of the loans and the notes, as applicable, by entering into certain swap agreements (see "*The swap agreements*" in the prospectus).

Interest rate risks are also managed through:

- a requirement in the servicing agreement that any discretionary rates set by the servicer in respect of the loans are set at a minimum rate (subject to the terms of the mortgage loans and applicable law) (see "*The servicing agreement—Undertakings by the servicer*" in the prospectus), noting that such requirement is contingent upon the swap provider failing to perform under the relevant swap agreements, being in default or becoming insolvent;
- with respect to the Master Issuer, it fully hedges its obligations as the Master Issuer lends the proceeds of any offering of notes to Funding pursuant to the intercompany loan agreement, where the proceeds of sterling denominated floating rate notes are lent on the same terms as the notes with respect to currency and interest rate; and after giving effect to the relevant swap agreements, the proceeds of sterling denominated fixed rate notes and/or non-sterling denominated notes are lent to Funding pursuant to the intercompany loan agreement on the same terms as the notes with respect to currency and interest rate;
- with respect to Funding, Funding obtains its share of revenue generated on a monthly basis from the fixed rate, discounted variable rate, capped rate, tracker, minimum rate and higher variable rate loans, Funding has entered into swap agreements; and
- with respect to the mortgages trust, it does not require any hedging as it distributes the revenue and principal that it receives from the trust property to Funding and the seller.

Except for the purpose of hedging interest-rate or currency risk, none of the Master Issuer, Funding or the mortgages trustee enter into derivative contracts, for purposes of Article 21(2) of the UK Securitisation Regulation.

The table below shows the Santander UK SVR and the Bank of England base rate from September 1995 to August 2023.

The table below shows the Santander UK SVR, the Bank of England base rate and SONIA from September 1995 to August 2023.

**Verification of data**

The seller has caused a sample of the loans (including the data disclosed in respect of those loans) to be externally verified by an appropriate and independent third party. The portfolio as at the cut-off date has been subject to an agreed upon procedures review on a representative sample of loans selected from the portfolio as at 31 December 2022 conducted by a third-party and completed on or about 17 February

2023 with respect to the portfolio as in existence as of 31 December 2022 (the **AUP report**). Another independent third party has verified that the stratification tables disclosed under the sections “Statistical information on the expected portfolio”, “Static pool data and dynamic data in respect of whole residential mortgage book” of this final terms and “Static pool data and dynamic data in respect of whole residential mortgage book” in the base prospectus in respect of the loans are accurate. The AUP report has been filed with the U.S. Securities and Exchange Commission on 23 March 2023 and is publicly available. The originator has reviewed the reports of such independent third parties and is of the opinion that there were no significant adverse findings in such reports. The third parties undertaking such reviews only have obligations to the parties to the engagement letters governing the performance of the agreed upon procedures subject to the limitations and exclusions contained therein.

## STATIC POOL DATA AND DYNAMIC DATA IN RESPECT OF WHOLE RESIDENTIAL MORTGAGE BOOK

The tables below set out, to the extent material, certain static pool information with respect to the loans in the mortgages trust. The table should be read together with the tables set forth under “**Static Pool Data and Dynamic Data in respect of Whole Residential Mortgage Book**” in the base prospectus.

Static pool information on prepayments has not been included because changes in prepayment and payment rates historically have not affected repayment of the Master Issuer notes, and are not anticipated to have a significant effect on future payments on the Master Issuer notes for a number of reasons. The mechanics of the mortgages trust require an extended cash accumulation period (for bullet term advances) when prepayment rates fall below certain minima required by the rating agencies, serving to limit the extent to which slow prepayments would cause the average lives of the Master Issuer notes to extend. Furthermore, only a limited amount of note principal in relation to the very large mortgages trust size is actually due to be repaid on any particular interest payment date.

One of the characteristics of the mortgages trust is that the seller is able to sell more loans to the mortgages trustee over time, whether in connection with an issuance of Master Issuer notes or in order to maintain the minimum seller share. The sale of new loans by the seller to the mortgages trustee is subject to conditions, including ones required by the rating agencies, designed to maintain certain credit-related and other characteristics of the mortgages trust. These include limits on loans in arrears in the mortgages trust at the time of sale, limits on the aggregate balance of loans sold, limits on changes in the weighted average repossession frequency and the weighted average loss severity, minimum yield for the loans in the mortgages trust after the sale and maximum loan-to-value ratio for the loans in the mortgages trust after the sale. See a description of these conditions in “**Assignment of the loans and their related security**” in the base prospectus.

Please refer to the tables set forth under “**Static Pool Data and Dynamic Data in respect of Whole Residential Mortgage Book**” in the base prospectus for (a) the distribution of loans originated by Santander UK (including but not limited to loans in the portfolio) in or after 2003 that have been delinquent for more than three months as at each year-end starting in 2003 (b) the distribution of loans originated by Santander UK (including but not limited to loans in the portfolio) in or after 2003 secured by mortgaged properties which have been repossessed and (c) the credit performance in respect of loans originated by Santander UK (including but not limited to loans in the portfolio).

The following tables summarise loans in arrears and repossession experience for loans originated by Santander UK (including but not limited to loans in the portfolio) as at the dates indicated below. The tables should be read together with the tables set forth under “**Static Pool Data and Dynamic Data in respect of Whole Residential Mortgage Book**” in the base prospectus.

(1) Stage 1: when there has been no significant increase in credit risk (SICR) since initial recognition, Stage 2: when there has been a SICR since initial recognition, but no credit impairment has materialised, Stage 3: when the exposure is considered credit impaired.

(2) Excludes mortgages where the customer did not pay for between 31 and 90 days, arrears, bankruptcy, maturity default, forbearance and PIPs NPLs.

(3) Mortgage loans and advances are classified as non-performance loans when customers do not make a payment for three months or more, or if Santander UK has data that raises doubts on the ability of customers to keep up with payments. From 2019, NPLs are no longer reported due to changes in accounting standards in IFRS9.

(4) Prior to 2018, loss allowances were on an incurred loss basis per IAS 39, whilst for 2018 they are on an ECL basis per IFRS 9. The loss allowance is for both on and off-balance sheet exposures.

(5) Stage 1/Stage 2 exposures as a percentage of customer loans. Total Stage 3 exposure as a percentage of customer loans plus undrawn Stage 3 exposures. The way we calculate the Stage 3 ratio was changed from 1 January 2019, and 2018 restated for consistency. See 'Key metrics' in the 'Credit risk – Santander UK group level' section. Total Stage 3 exposure as a percentage of customer loans plus undrawn Stage 3 exposures. The way we calculate the Stage 3 ratio was changed from 1 January 2019, and 2018 restated for consistency. See 'Key metrics' in the 'Credit risk – Santander UK group level' section

(6) Mortgages in early arrears as a percentage of mortgages.

(7) Mortgage NPLs as a percentage of mortgages.

(8) Loss allowances as a percentage of NPLs.
